TODAY & TOMORROW

SEPT. 21-OCT. 4, 1985

ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

Applications now are being accepted for the 1986 awards of the Pew Scholars Program in the Biomedical Sciences. UCSF has been invited to submit two nominations.

The program is designed to support young investigators of outstanding promise in basic and clinical sciences relevant to the advancement of human health.

Applications must be submitted by the appropriate dean's office no later than Monday, October 7, to Academic Services, Student Services building, lower level. For further information call Bill Wilson at x2218.

The UCSF Clinical Epidemiology Program, formerly at an off-campus location on Gough Street, has moved to expanded quarters at SFGH.

The teaching and research program, begun in July 1982 with funds from the Andrew Mellon Foundation, trains physicians in the use of statistical methods.

Epidemiology is the study of the way diseases are distributed in the general population and what causes them. Clinical epidemiology uses the same methods to study patients in hospitals and doctors' offices, focusing on the efficiency of diagnostic tests and effectiveness of treatment.

Stephen Hulley, MD, MPH, director of the program, and UCSF professor of epidemiology and medicine, said that 10 clinical epidemiology scholars are currently enrolled in the program. The goal, according to Hulley, is to prepare these physicians, who have completed their clinical training, for academic careers in clinical epidemiology. The scholars receive an academic training program, in some cases including a Master's of Public Health degree from UC-Berkeley. They also care for clinic and hospital patients, teach courses for residents and medical students, and carry out research projects during their fellowship. David Feigal, MD, MPH, a former scholar in the program, is associate director of the program and UCSF assistant professor of epidemiology and medicine at SFGH.

The UCSF/Mexus Program is cosponsoring the National Hispanic School Board Members Association's annual educational conference for policy decision makers on Friday and Saturday, October 4 and 5, in Cole Hall.

Key presenters will include William Honig, state superintendent of public instruction, and Thomas Arciniega, president, Fresno State. For further information call Lagaya Avenida at 565-9713 or Nancy Montoya at x3279.

The UCSF Library is offering four new sessions for the "Basics of Searching MEDLINE" on September 21 and 28, October 22 and 23, November 16 and 23 and December 11 and 12.

Each session will consist of an eight-hour lecture/discussion session on the first day, followed by an optional two-hour practice session the second day. Completion of the eight-hour session will enable the participant to apply for an individual access code from the National Library of Medicine for online searching of its MEDLINE database. This is not a course for those who intend to perform MEDLINE searches for others.

Each session costs $95 and is limited to 10 people. Seminars are open to UCSF practitioners, educators, researchers and students in the health care field. Applications are available in the Library Administration Office, Room S 257. For further information call Carol Yates-Imah, Elisabeth Bell or Jim Mackie at x2334.

MOVES

Administrative functions of the Office of the Vice Chancellor, Personnel & Student Services have moved from S 126 to 1310 Third Ave. The new telephone extension is 5186. Vice Chancellor Thena Trygstad remains in S 126, telephone extension 2401.

CONTINUING EDUCATION

DENTISTRY

Held in C 701 unless otherwise noted. Call x1101.

Periodontics. Monterey, CA. Sept. 27-28.

Fixed Removable Prosthodontics. Stockton, CA. Oct. 3.

MEDICINE

Call x4251 unless otherwise noted.

The Skin from A to Z. Napa Valley. Sept. 28-29.

Recent Advances in Pulmonary & Critical Care Medicine. Stanford Court Hotel, SF. Oct. 3-5.

Legal Issues in Medical Practice 1985. UCSF. Oct. 4-5.

***Nature's* Fifth International Conference: Update in Molecular Biology 1985: Genes & Systems in Development.** Sheraton Palace Hotel, SF. Oct. 7-9. (See Newsbriefs for details.)

RADIOLOGY

Call x5731.

Cardiac Imaging Symposium. Meridien Hotel, SF. Oct. 3-5.

NURSING SERVICES

Call x2993.

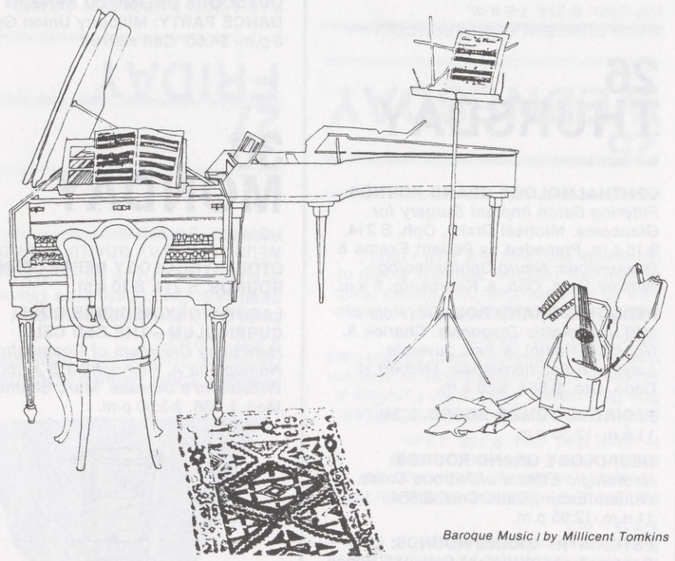
Western Regional Conference on Physiological Pacing. Cathedral Hill Hotel, SF. Sept. 25-27.

Principals of Chemotherapy. N 721. Sept. 27.

Nursing Diagnosis: A Practical Approach. LPPI Aud. Sept. 30.

DEADLINE

Deadline for the next issue of *Today & Tomorrow*, covering the time period Oct. 5-18, will be **Monday, Sept. 23, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.



Baroque Music I by Millicent Tomkins

UC-Berkeley biochemist and new editor of *Science* magazine Daniel Koshland, Jr., PhD, will speak on "Memory, Love and Chemistry" at the tenth annual Gordon Tomkins Lecture and Concert on Friday, October 11, at 3 p.m. in Cole Hall.

Following the lecture, The DaCapo Quartet will perform Brahms Piano Quartet in G Minor, with Stefan Hersh, violin; Tomkins' daughters Leslie, viola; and Tanya, cello; and Paul Hersh, piano.

A UC-Berkeley faculty member since 1965, Koshland's early work focused on enzyme mechanisms and protein chemistry, including the study of factors which explain the high catalytic power of enzymes. His most recent research has focused on behavior of bacteria, showing that memory is essential to their survival.

Gordon Tomkins was professor and vice chair of the Department of Biochemistry/Biophysics from 1969 until his death in 1975. The lecture and concert are held in commemoration of his leading role in molecular biology, and the development of the discipline at UCSF. Tomkins, a pioneer in the study of hormone action, also was an accomplished classical and jazz musician.

Also in honor of Tomkins, the Department of Biochemistry/Biophysics has hung a large oil painting entitled "The Bay Area from Mt. Tamalpais" in the department's "Gordon Tomkins" Room, S 980. Painted by Mill Valley artist Millicent Tomkins, his widow, the work depicts a panoramic view of the Bay Area shrouded in fog and shows UC-Berkeley, where he got his PhD, UCSF, where he was active on the staff, and Mt. Tamalpais, where he loved to hike.

Bruce M. Alberts, PhD, has been appointed the new chair of the Department of Biochemistry and Biophysics as of November 1, and Bruce U. Wintroub, MD, has been appointed the new chair of the Department of Dermatology as of September 6.

- Professor of biochemistry and biophysics since 1976, Alberts was appointed to membership in the National Academy of Sciences in 1981 and that same year was made an American Cancer Society Research Professor of Biochemistry. In 1978, he was one of nine UC scientists elected to the American Academy of Arts and Sciences.

Before coming to UCSF Alberts was the Damon Pfeiffer Professor of Life Sciences at Princeton. At UCSF his work centers on molecular genetics, and he is studying the chemistry of the process by which the genetic material, DNA, is replicated. He is coauthor of a major textbook in cell biology, *Molecular Biology of the Cell.*

- Wintroub, who came to UCSF in 1982 as associate professor and vice chair of the Department of Dermatology, and assistant chief of dermatology at the VAMC, had been assistant professor of dermatology at Harvard Medical School. Winner of the 1976 Stellwagon Prize from the American Academy of Dermatology, he was a NIH clinical in-

(Continued inside)

Three University-owned homes on Kirkham and Third Avenues, that orginally were UCSF offices, have been converted back to private homes. Four more homes will follow in the next two months, including three on Fifth Avenue. All have been refurbished with new bathrooms, kitchens, carpets, new deck areas and freshly painted interiors and exteriors and will be available for residency this fall to UCSF faculty and students.

Just opened is an Edwardian with five bedrooms that will be used as the School of Pharmacy fraternity—Phi Delta Chi—located at 1320 Third Avenue. The School of Pharmacy frater-

INFORMATIONAL MEETING ON THE NEW UC SAVINGS PROGRAM. Cole Hall. Noon-2 p.m. & 5-7 p.m.

PHYSIOLOGY SPECIAL SEMINAR: *Transplanted, Injured & Normal Rat Motor Cortex.* Frank Sharp, Neuro. S 758. 1 p.m.

LABORATORY MEDICINE CORE CURRICULUM—THE RED CELL: *Acquired Disorders of Coagulation: Circulating Anti-Coagulants, Disseminated Intravascular Coagulation, Liver Disease, Primary Fibrinogen/Fibrinolysis* and *Acquired Platelet Disorders: Immune Thrombocytopenia, Thrombotic Thrombocytopenic Purpura.* L 535. 2-3:30 p.m.

PHARMACY SEMINAR: *Bifunctional Lymphocyte Regulation by the Fc Region of Immunoglobulins.* Edward Morgan, Immuno., Scripps. HSW 302. 3 p.m.

SOOY VISITING PROFESSOR SEPT 23 & 24

Peter Dallos, Neurobio. & Physio., Northwestern U.

Mon., Sept. 23: *Where Hearing Begins: Neurobiology of the Peripheral Auditory Organ.* Toland Hall. 4 p.m.

Tues., Sept. 24: *Contemporary Issues in Hearing Research.* Panel discussion with UCSF's James Hudspeth, Patricia Leake, Michael Merzenich & Robert Schindler; William Bialek, UCSB; Hewitt Crane, SRI Int.; Peter Narins, UCLA; Luis Robles, U Chile; Charles Steele, Stanford. Faculty/Alumni House. 10 a.m.-2 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *Differentiation Between Congenital & Acquired Immune Deficiency Disorders.* Arthur Ammann, Genentech & Ped. L 535. 4-5 p.m.

SCHOOL OF DENTISTRY STOMATOLOGY SEMINAR: *Prevention of Dental Caries & Periodontal Diseases by Immunization: Studies Using Animal Models.* Ken Futakami, Lion Corp., Japan. HSW 655. 5 p.m.

NEW VOLUNTEER ORIENTATION: To acquaint new & prospective volunteers with opportunities in Hospitals & Clinics. C 130. 6-8:30 p.m. Call x1196.

24 TUESDAY

ORAL SURGERY CONFERENCE. Toland Hall. 8 a.m.

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

OBSTETRICS/GYNECOLOGY & REPRODUCTIVE SCIENCES GRAND ROUNDS. S 1364. 9 a.m.

ANATOMY SEMINAR: *Tracheal Mucus Secretion.* Carol Basbaum, Anat. HSE 1309. Noon.

UCSF AL-ANON MEETING: For friends & families of alcoholics. S 1364. Noon-1 p.m.

TRISERVICES CARDIOLOGY CONFERENCE. C 130. 4-5 p.m.

RHEUMATOLOGY/CLINICAL IMMUNOLOGY RESEARCH CONFERENCE: *Antigen Receptor Signalling in B Lymphocytes.* Anthony DeFranco, Microbio. HSW 300. 4-5 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

GU PATHOLOGY SEMINAR: *Urinary Cytology.* Theodore Miller, Path. M 460. 4:30-6 p.m.

PATHOLOGY GRAND ROUNDS: *Salivary Gland Tumors.* Linda Ferrell, Path. HSW 508. 5:15-6:15 p.m.

26 THURSDAY

OPHTHALMOLOGY GRAND ROUNDS: *Filtering Seton Implant Surgery for Glaucoma.* Michael Drake, Oph. S 214. 9:15 a.m. Preceded by Patient Exams & Discussions: *Neuro-Ophthalmology.* William Hoyt, Oph. & Neurosurg. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Role of MRI in Pediatric Diagnosis.* Charles A. Gooding, Radiol. & Ped. *Juvenile Laryngeal Papillomatosis.* Herbert H. Dedo, Oto. S 664. 8:30 a.m.

PEDIATRIC TUMOR BOARD. L 34. 11 a.m.-12:30 p.m.

NEUROLOGY GRAND ROUNDS: *Neurologic Effects of Nitrous Oxide.* William Estrin, Gallo Cntr. S 664. 11 a.m.-12:05 p.m.

PSYCHIATRY GRAND ROUNDS: *New Research about Violent Patients.* Renee Binder, Psychr.; Dale Moniel, Psych; Susan Ormiston, LPPI Nurs. HSW 301. 11 a.m.-12:30 p.m.

UCSF/MOUNT ZION GERIATRIC GRAND ROUNDS: *Acute Renal Failure in the Elderly.* Alan Coleman, Med. Herbst Hall, Mount Zion. Noon.

NEURO-ONCOLOGY CONFERENCE. L 34. 12:30-2 p.m.

COMBINED HEMATOLOGY/ONCOLOGY ROUNDS. M 1296. 1:30-2:30 p.m.

ORTHOPAEDIC SURGERY CLINICAL GRAND ROUNDS. A 630. 4 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 4-5 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

SEMINAR: *Proteins as Pharmaceuticals: Stability & Analytical Considerations.* Rodney Pearlman, Genentech. S 1364. 11 a.m.

REPRODUCTIVE BIOLOGY SEMINAR: *Freeze Fracture in Biology & Pathology.* Dan Friend, Repro. Endo. M 1486. Noon.

PATHS OF HEALING & WHOLENESS SEMINAR: *Psychic Healing—Reality or Mirage?* Chatal Bouyssounouse. N 517. Noon-1 p.m.

28 SATURDAY

ANESTHESIA MORBIDITY/MORTALITY CONFERENCE. HSW 301. 8-10 a.m.

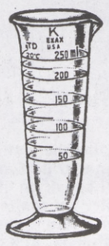
SURGERY GRAND ROUNDS. Cole Hall. 8:30 a.m.

OUTDOORS UNLIMITED BENEFIT DANCE PARTY: Millberry Union Gym. 8 p.m. $4.50. Call x2078.*

30 MONDAY

OTOLARYNGOLOGY DEPARTMENTAL ROUNDS. S 214. 8-10 a.m.

LABORATORY MEDICINE CORE CURRICULUM—THE RED CELL: *Hereditary Disorders of Coagulation: Hemophilia A, Hemophilia B & von Willebrand's Disease.* Marc Shuman, Med. L 535. 2-3:30 p.m.



LABORATORY MEDICINE GRAND ROUNDS: *Immunoglobulin Mediated Destruction of Human Senescent & Pathological Red Cells.* Uri Galili, CRI. L 535. 4-5 p.m.

CVRI SEMINAR: *On the Problem of Energy Transduction in Muscles.* Emanuel Morales, Biophys. S 1364. 4-5:30 p.m.

UROLOGY RADIOLOGY CONFERENCE: Emil A. Tanagho, Uro. M 460. 4:30-6 p.m.

2 WEDNESDAY

HAND SURGERY CONFERENCE. Rm. 4H40, SFGH. 7-8 a.m.

MULTIDISCIPLINARY TUMOR BOARD: L 34. 7:30 a.m. Call Genny Buehler, coordinator, x1662.

NUCLEAR MEDICINE CONFERENCE. S 455. 8 a.m.

ENDOCRINE GRAND ROUNDS: *Platelet Activating Factor: A Lipid That Thinks It's a Hormone.* Frank Valone, Med. LPPI Aud. 9 a.m.

PRIMARY CARE LECTURE SERIES: *Oral Lesions.* John Greenspan, Oral Bio. & Path. *Arrhythmia.* John Herre, Med. A 455. 10 a.m.-noon.

MEDICINE GRAND ROUNDS: *Critical Care in the US: Past Performance & Future Possibilities.* John Luce, Med. & Anes. *Decisions about Life Support for Patients with AIDS.* Bernard Lo, Med. Cole Hall. 10:30 a.m.-noon.

FACULTY WIVES MEETING: *Benny Bufano Lecture/Slide Presentation.* Mrs. Pat Schindler. Faculty/Alumni House. 10:30 a.m. Call Marjorie Campagna-Pinto, 921-6646.

BROWN BAG TOURS LECTURE SERIES: *Making the Most of a Small Garden.* Richard G. Turner, Strybing Arboretum Society. Tapes of all talks available for listening in HSE 345, SIMA Unit, UCSF Library. For further information call x4394. HSW 303. Noon. Free.*

CAL FILM: *49er Football Highlights.* Cole Hall. Noon & 5:30 p.m.*

ANATOMY SEMINAR: *Membrane Fusion Proteins.* Judy White, Pharm. HSE 1309. Noon.

UCSF AL-ANON MEETING: For friends & families of alcoholics. S 1364. Noon-1 p.m.

ORAL BIOLOGY 220 SEMINAR: *Immune Functions of Intraephithelial Dendritic Cells.* Troy Daniels, Oral Bio. S 536. Noon-1 p.m.

MEDICAL INFORMATION SCIENCES GRAND ROUNDS: *The Computer Graphics Lab.* Robert Langridge, Pharm. Chem. & Computer Graphics. N 721. 3:30 p.m.

PHYSIOLOGY SEMINAR: *The Renin-Stimulating Effect of Vasoactive Intestinal Peptide: Mechanism & Physiological Significance.* William F. Ganong, Physiol. S 758. 4 p.m.

TRISERVICES CARDIOLOGY CONFERENCE. C 130. 4-5 p.m.

CHILD NEUROLOGY ROUNDS. M 666. 4:30 p.m.

PATHOLOGY GRAND ROUNDS: *Fine Needle Aspiration of Lymph Nodes.* Elizabeth Donegan, Path. HSW 508. 5:15-6:15 p.m.

PSYCHIATRY BENEFIT OCT 3

To benefit Dept. Psychr. & Friends of LPPI. California Culinary Academy, 625 Polk St. 7 p.m. Call 929-1417. $125. (See Newsbriefs for details.)

4 FRIDAY

UCSF/MEXUS CONFERENCE OCT 4 & 5

National Hispanic Schoolboard Members Assn. annual educational conference for policy decision makers. Cole Hall. 8 a.m.-5 p.m. (See Newsbriefs for details.)

SCHOOL OF NURSING RESEARCH DAY OCT 4

Investigators to present their research. Toland Hall. 8:30 a.m.-5 p.m. (See Newsbriefs for details.)

PHARMACEUTICAL CHEMISTRY SEMINAR: *The Chemistry of Beta-Thiolactams.* Ernst Schaumann, Chem., Inst. of Organic Chem., W. Germany. S 1364. 9 a.m.

CLINICAL NUTRITION GRAND ROUNDS: *Outpatient Total Parenteral Nutrition.* Michael S. Hickey, Surg., SFGH. S 214. Noon.

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

CLINICAL CONFERENCE OF THE LPPI CHILD & ADOLESCENT SERVICE. LPPI Aud. 10-11:30 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

REPRODUCTIVE BIOLOGY SEMINAR: *Neuronal Interactions Controlling Primate Reproduction.* Paul Goldsmith, Repro. Endo. M 1486. Noon.

PATHS OF HEALING & WHOLENESS SEMINAR: *Tarot as a Vehicle for Developing Consciousness.* Jim Moyers. N 517. Noon-1 p.m.

COLE HALL CINEMA: *The Breakfast Club.* Children under 14 $1.50, UCSF students & MU members $2, general $2.50. 6:30 & 8:45 p.m.*

* — Open to the public

OTOLARYNGOLOGY DEPARTMENTAL ROUNDS. S 214. 8-10 a.m.

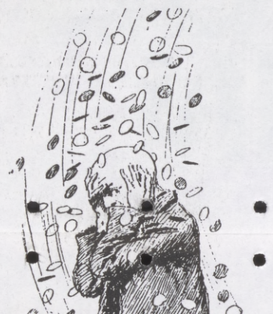
MOBILE BREAST SCREENING SCHEDULE

Women now can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient shopping or downtown locations in San Francisco and remains for a week at a time.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes and costs only $30. To make an appointment call x4158 between noon and 3:30 p.m.

The van will be at the following locations for the next two weeks.

- Sept. 23-27: Irving between 25th & 26th Ave. across from the Sunset Super.
- Sept. 30-Oct. 4: Civic Center, McAllister between Larkin & Polk.



CENTER ON DEAFNESS ROUNDS: *Communication Systems & Maladaptive Behaviors in Developmentally Disabled Deaf Persons.* Shirley Kramer, Psych., Sonoma State Hosp. 1474-5th Ave. 10:30 a.m.-noon.

PERINATAL MORBIDITY & MORTALITY CONFERENCE. M 666. Noon.

INTERNATIONAL FOLK DANCING: Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. 1-2:15 p.m.*

PHYSIOLOGY SPECIAL SEMINAR: *PDGF Receptors in Normal & Transformed Cells.* Lewis T. Williams, Howard Hughes Med. Inst. S 758. 3 p.m.

LPPI NURSING EDUCATION SEMINAR: *The Department of Nursing: Function & Future.* A panel presentation by Marilyn Rajokovich and nurses from patient care units. LPPI Aud. 3-4 p.m.

CAL READING CLUB MEETING: Discussion of the book *Can You Forgive Her?* by Anthony Trollope. Millberry Board of Governors Rm. 5:45 p.m. Call x1800.*

25 WEDNESDAY

HAND SURGERY CONFERENCE: *Journal Club.* S 214. 7-8 a.m.

MULTIDISCIPLINARY TUMOR BOARD: L 34. 7:30 a.m. Call Genny Buehler, coordinator, x1662.

NUCLEAR MEDICINE CONFERENCE. S 455. 8 a.m.

PRIMARY CARE LECTURE SERIES: *Insulin Dependent & Nondependent Diabetes.* Edward J. Meyer, Med. A 455. 10 a.m.-noon.

MEDICINE GRAND ROUNDS: *Occupational Hepatotoxicity.* Robert J. Harrison, Med. *Shiftwork & Fatigue.* Joseph Ladou, Med. Cole Hall. 10:30 a.m.-noon.

BROWN BAG TOURS LECTURE SERIES: *Biofeedback.* Karen H. Naifeh, Psych., LPPI & NASA Ames Res. Cntr. Tapes of all talks available for listening in HSE 345, SIMA Unit, UCSF Library. For further information call x4394. HSW 303. Noon. Free.*

ANATOMY SEMINAR: *Tracheal Mucus Secretion.* Carol Basbaum, Anat. HSE 1309. Noon.

UCSF AL-ANON MEETING: For friends & families of alcoholics. S 1364.

PRIMARY CARE GRAND ROUNDS: *Geriatrics.* Stephen Schroeder, Med. A 455. 4:30 p.m.

UROLOGIC PHYSIOPATHOLOGY SEMINAR: *Post Obstructive Diuresis.* Sharron Mee, Uro. M 460. 4:30-6 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5-6:30 p.m.

27 FRIDAY

RADIATION ONCOLOGY GRAND ROUNDS. L 72. 8 a.m.

PULMONARY PHYSIOLOGY SEMINAR: *UC Case Presentations.* L 1361. 8:10-9:30 a.m.

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

CLINICAL CONFERENCE OF THE LPPI CHILD & ADOLESCENT SERVICE: *Differential Diagnosis & Definitive Treatment Planning for Siblings with a History of Neglect & Subsequent Adoption, Presenting With Behavioral Symptoms of Hyperactivity.* Minnette Murphy, Child Psychr. LPPI Aud. 10-11:30 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

PHARMACEUTICAL CHEMISTRY 221 SEMINAR: *Proteins as Pharmaceuticals: Stability & Analytical Considerations.* Rodney Pearlman, Genentech. S 1364. 11 a.m.

REPRODUCTIVE BIOLOGY SEMINAR: *Freeze Fracture in Biology & Pathology.* Dan Friend, Repro. Endo. M 1486. Noon.

PATHS OF HEALING & WHOLENESS

1 TUESDAY

HOSPITALS AUXILIARY EXHIBIT: On display for the month of October in the lobby of Moffitt Hospital will be handmade dolls by Nancy Liebel, nature photos by James Whereat and batiks by Ramey Weber. A portion of all proceeds benefits UC Hospitals & Clinics patients. For further information or to purchase or reserve work, visit the Auxiliary Office, next to the cashier, Moffitt lobby, 10 a.m.-2 p.m. or call x4906.

ORTHOGNATHIC SURGERY CONFERENCE. Toland Hall. 8 a.m.

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

NEW EMPLOYEE ORIENTATION: *UCSF Policies, Procedures, Benefits & Campus Tour.* Presented every other Tues. All new employees are urged to attend. 8:30 a.m.-12:30 p.m. Cole Hall. To register call x1645.

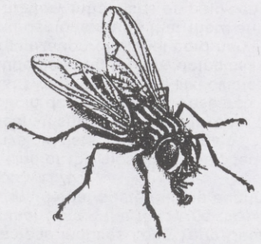
OBSTETRICS/GYNECOLOGY & REPRODUCTIVE SCIENCES GRAND ROUNDS. S 1364. 9 a.m.

NESTLE BOOKSIGNING: Marion Nestle, Fam. & Comm. Med., will sign her new book entitled *Nutrition in Clinical Practice.* Millberry Bookstore. 11:30 a.m.-1 p.m. (See Newsbriefs for details.)*

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE: Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

INTERNATIONAL FOLK DANCING: Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. 1-2:15 p.m.*

INTRODUCTION TO HOSPITALS & CLINICS: For new employees in Hospitals & Clinics areas. Presented every other Tuesday. 1:45-3:30 p.m. M 169. Supervisors call Nancy, x1401.



BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Genes That Affect Synaptic Connectivity in* Drosophila. HSW 302. 4 p.m.

UCSF BOARDSAILING CLUB MEETING: Outdoors Unlimited, Parnassus Ave. between 3rd & 4th Ave. 7 p.m. Call x2078.*

2 WEDNESDAY

3 THURSDAY

PEDIATRIC GRAND ROUNDS: *Chorionic Villous Sampling.* Mitchell Golbus, Ob/Gyn & Ped. *Ultrasound Diagnosis of Fetal Neuroaxis Abnormalities.* Peter Callen, Radiol. S 664. 8:30 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Life Events & Industrial Accidents.* Hanna Levenson, Psychr. A 455. 8:30-10 a.m.

NEUROLOGY GRAND ROUNDS: *Optic Neuritis: A Clinical Immunologic Model.* Robert Sergott, Neuro., U Penn. S 664. 11 a.m.-12:05 p.m.

PSYCHIATRY GRAND ROUNDS: *The Biology of Human Information Processing.* Enoch Callaway, Psychr. HSW 301. 11 a.m.-12:30 p.m.

UCSF RAPE PREVENTION EDUCATION PROGRAM FILM: *Women in Danger.* HSW 303. Noon-1 p.m.*

NEURO-ONCOLOGY CONFERENCE. L 34. 12:30-2 p.m.

COMBINED HEMATOLOGY ROUNDS. M 1296. 1:30-2:30 p.m.

ORTHOPAEDIC SURGERY CLINICAL GRAND ROUNDS. A 630. 4 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

PRIMARY CARE GRAND ROUNDS: *Nonpharmacological Treatment of Hypertension.* Thomas J. Coates, Med. A 455. 4:30 p.m.

UROLOGIC PHYSIOPATHOLOGY SEMINAR: *Renal Compensatory Hypertrophy & Counterbalance.* Jason Abber, Uro. M 460. 4:30-6 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5-6:30 p.m.

RADIOLOGY GRAND ROUNDS: *Interventional Rounds.* Ernest J. Ring & Timothy Maroney, Radiol. HSW 303. 5:30-6:30 p.m.

COLE HALL CINEMA: *The Breakfast Club.* Children under 14 $1.50, UCSF students, employees & MU members $2, general $2.50. 5:45 p.m.*

DEVELOPMENT & TRAINING PROGRAMS

Call x4032.

Demystifying Computers. 9 a.m.-4:30 p.m. Thurs., Oct. 3.

English as a Second Language. Noon-1 p.m. Wed. & Fri., Oct. 9-Dec. 18.

Survival Skills for the Administrative Assistant. 1:30-4:30 p.m. Wed., Oct. 9.

Financial Planning Seminar: Tax Shelters. 8:30-10 a.m. Thurs., Oct. 10.

Send Me a Memo. 10 a.m.-noon. Wed. & Fri., Oct. 16-25.

Supervisors Training Program. 8:30 a.m.-12:30 p.m. Thurs., Oct. 17-Nov. 21.

Introduction to Word Processing. 8:30 a.m.-11:30 p.m. Tues., Oct. 22.

Performance Evaluation. 8:30 a.m.-4:30 p.m. Tues., Oct. 22.

UC Budget Process. 9 a.m.-noon. Mon., Oct. 28.

Financial Planning Seminar: Overview. 8:30 a.m.-noon. Tues., Oct. 29.

Affirmative Action for Supervisors & Managers. 9 a.m.-noon. Wed., Oct. 30.

SFGH

TUESDAY 24

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Work-Up of UTI's in Children.* Barry Kogan, Ped. Uro. *Cryptorchidism.* Frank Hinman, Uro. Carr Aud. 8:30-10 a.m.

MEDICINE GRAND ROUNDS: *Treatment of Herpes Virus Infection.* John Mills, Med., SFGH. Carr Aud. 11:30 a.m.

GI-MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58. 3:30 p.m.

WEDNESDAY 25

UROLOGY GRAND ROUNDS. SFGH Cafeteria. 7:30 a.m.

GI-MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2. 4:30 p.m.

THURSDAY 26

NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCE: *Ap-*

Nonprofit Organization

NEWS BRIEFS

(Alberts and Wintroub continued)

vestigator in 1978.

Wintroub is an immunodermatologist whose research has centered on mechanisms of formation and processing of bioactive peptides in human tissue. He is a founding member of the International Society of Cutaneous Pharmacology and a member of the American Society of Clinical Investigation. He also serves as associate editor of *Dialogues in Dermatology.*

A special UCSF public health education program, consisting of six TV public service spots now airing on channels 2, 4, 5 and 7 in the Bay Area and on commercial and cable stations elsewhere in California, has won a Showcase Award from the San Francisco Ad Club. The spots were produced and distributed to major stations from the Oregon border to the Fresno-San Joaquin Valley.

Significant health issues in pediatrics and ob/gyn were the focus of this first series, with topics covering mammography, adolescent medicine, poison control, childhood vaccinations, premature birth and the concerns of the older first-time mother.

A proposal has been received from a major TV distribution company to broadcast the series nationally via satellite. Produced by Janet Norton, UCSF director of institutional relations, and Arons and Associates, an outside marketing firm, the program is sponsored by the Medical Center at UC-San Francisco and each spot carries the UCSF logo as its sign-off.

The Medical Center at UCSF also is underwriting in part the show *Health Notes* shown on KQED-TV Channel 9. David Watts, MD, UCSF associate clinical professor, medicine, provides up-to-date reports on medical research and health education. Topics include impaired hearing, headaches, exercise, nutrition, PMS, stress reduction and home diagnostic tests.

Watts and UCSF's Linda Bernstein, PharmD, also have received $42,000 to develop a series of one-minute health messages for preschoolers, also to be aired on KQED.

Bernstein, who recently completed an American Heart Association-sponsored educational curriculum designed to teach preschoolers proper care of their hearts, will direct the project. Watts is executive director.

Supplied by the Henry J. Kaiser Family Foundation of Menlo Park, Pacific Telesis Foundation and the Friedman Family Foundation of San Francisco, the funds will go towards the development of nine musical messages addressing various aspects of health.

(University-owned Homes continued)

nity formerly was located in a home in the Sunset district which now has been vacated. Also available now are two single-family units at 24 and 30 Kirkham—each with a new downstairs studio which will be available for rental to campus visitors on a short-term basis.

Homes scheduled for refurbishing in the next two months include an art deco home at 1468 Fifth Avenue, two single-family Victorians at 1454 and 1490 Fifth Avenue, and a five-bedroom home at 1350 Third Avenue.

All homes on Third Avenue are to be rented to students; Fifth Avenue and Kirkham to faculty.

Chancellor and Mrs. Krevans hosted a reception at the Faculty/Alumni House on September 17 to honor some 155 UCSF faculty and staff who have contributed their time to present "Brown Bag" lectures both on campus and in the San Francisco corporate community.

Attendees included UCSF speakers and the leadership of corporations which participated in the noontime lecture series, among them Bechtel international, Bank of America, Safeway Stores, Shaklee Corporation, Wells Fargo Bank, Pacific Gas & Electric Co., Chevron Corporation, Levi Strauss & Co., Commonwealth Club of California, Hong Kong Bank, US Leasing, Pacific Bell, Dean Witter Reynolds, California State Auto Association and the Federal Reserve Bank of San Francisco.

Special guests were members of the UCSF Board of Overseers Task Force on External Communications.

During the past five years, 125 lectures have been given downtown at noon for some 12,000 corporate employees. In addition, more than 400 Brown Bag noontime lectures were held on campus, a UCSF tradition originating almost a decade ago and attended by more than 46,000 people from the campus and community.

Two major campus fundraisers will be held in October, both at the new California Culinary Academy, 625 Polk Street.

- A benefit dinner for the Department of Psychiatry and the Friends of Langley Porter Psychiatric Institute will be held on Thursday, October 3, 7 p.m. Contributions are $125 per person. For further information call 929-1417.
- The McKesson Corporation is cosponsoring a benefit dinner for the Magnetic Resonance Imaging Program on Thursday, October 17, at 6:30 p.m. Tickets are $150 per person. For further information call at 626-8110.

Puppets, clowns, balloons and fingerpainting will be part of the fun at the UCSF Children's Health Fair on Saturday, October 12, from 10 a.m. to 4 p.m. in Millberry Union.

Children of all ages and their families are invited to attend this special, free event, which will focus on the theme of health education, disease prevention and safety for young people.

Sponsored by the UCSF Children's Medical Center and Hospitals and Clinics, the fair will feature more than 50 booths and exhibits designed to help children learn about the many aspects of health care through "hands-on" experiences. Some of the activities will include hospital play with puppets, health screening, computer read-outs of personal health information, art projects using hospital supplies and the chance to explore the inside of an ambulance.

The 1985 UCSF reunion for children who were patients in the Intensive Care Nursery or mothers who participated in the Pre-term Labor Program will be held in conjunction with the health fair. Sponsored by the UCSF Parent Support Group, the annual reunion provides a chance for Support Group members to renew friendships and for medical and nursing staff to be reacquainted with patients they had cared for.

Free parking will be available in the Millberry Union garage.

A new UCSF Periodontal Diagnostic Center will open in October at the School of Dentistry, offering dentistry's newest approaches to the diagnosis and treatment of periodontal disease—the leading cause of tooth loss.

The first of its kind on the West Coast, the center will serve as a resource for several states, said director Gary Armitage, DDS, professor of stomatology and chair of the Division of Periodontology.

Periodontal disease is caused by bacteria normally present in the mouth, Armitage noted. For poorly understood reasons, certain microbes increase in numbers and infect the gums. Pockets form below the gum line damaging underlying bone, which may result in loss of teeth.

About 90 percent of all Americans have some degree of periodontal disease, Armitage pointed out, and 40 million have moderate or severe cases. Though simple cleaning often can control the condition, many cases persist.

"In the past five years, we've realized we're not treating one disease, but different infections," Armitage said, "and we're beginning to unravel the microbiology of these diseases." At least five different kinds of periodontal disease are now recognized, and as many as 30 kinds of bacteria may be involved, he said. In addition, researchers are identifying other factors that may play a role, such as an abnormality in the white blood cells of some patients.

Dentists at the new center will customize each patient's treatment after a careful evaluation that includes microbiological cultures.

Patrick D. Wall, MD, professor and director of the Medical Research Council's Cerebral Functions Group, University College, London, is the first annual Witter Memorial Lecturer on Pain. He will speak on "Why is it That Some Pain Remains Intractable?" on Thursday, October 10, at 4 p.m. in Toland Hall.

Wall also will discuss "Deep Tissue Damage Induces Long Term Changes in Spinal Cord," the following day at noon in the dental postgraduate auditorium, Room C 701.

One of the most distinguished physiologists working on pain mechanisms, Wall has played a major role in developing pain research in the last two decades. His discoveries include defining the physiological laminar organization of spinal cord nerve cells and demonstrating that there are many inhibitory influences on pain-sensitive neurons in the brain. His recent research has focused on how long-lasting changes in the peripheral and central nervous system following tissue damage might contribute to chronic pain.

William M. Witter, former chief executive officer of Dean Witter, Reynolds and Co., died last year of a disease associated with severe pain. Through the generosity of his family and friends, the William M. Witter Memorial Fund was established under the auspices of the UCSF Department of Neurological Surgery and Neurology. The purpose of the fund is to further the knowledge of pain and to improve the ability to relieve it.

Some 18 investigators from the School of Nursing will present their latest research in the areas of oncology, aging and health, and family and community health, at the School's Nursing Research Day, on Friday, October 4, from 8:30 a.m. to 5 p.m. in Toland Hall. Contact Claudia Ketner, x2626, for a complete listing of times and topics.

The British journal *Nature* and UCSF will jointly host an international conference on genes and their role in development Monday to Wednesday, October 7 to 9, at the Sheraton-Palace Hotel in San Francisco.

Drawing scientists, physicians and biotechnologists from around the world, the conference is intended to give researchers in industry and academia the opportunity to learn about the most recent developments in the field of molecular biology. It is the second international symposium to be sponsored by *Nature*—the first was in Boston last year.

Major topics of discussion will be state-of-the-art diagnosis and therapy for genetic diseases, homeotic genes, yeast development, development of the immune system—including T-cell receptors—and future implications of new biological materials and processes in medicine and industry. While speakers will review these fields, a major part of each presentation will be a discussion of recent research.

UCSF researchers participating include Bruce Alberts, J. Michael Bishop, Patrick O'Farrell, Ira Herskowitz, Marc Kirshner, David Martin, William Rutter, Harold Varmus and Keith Yamamoto. For further information call x4251.

HONORS & AWARDS

Steven A. Leibel, associate professor, radiation oncology; **Susan Wall,** assistant clinical professor, radiology; **C.C. Wang,** clinical professor, pharmaceutical chemistry: Winners of the 1985 Distinguished Teacher Award from UCSF Academic Senate. **Sandra Weiss,** associate professor, mental health & community nursing, School of Nursing, received honorable mention.

George Stone, professor, health psychology; director, graduate academic program: Elected president, American Psychological Association, Division of Health Psychology, Aug. 24, in LA.

Penny Sneed, resident, radiation oncology: Will receive the Resident's Essay Award from the American Society for Therapeutic Radiology & Oncology on Sept. 28 in Miami.

John S. Greenspan, professor & chair, oral biology, School of Dentistry; professor, pathology: Presented the Pindborg Lecture at the annual meeting of the Scandinavian Society for Oral Medicine, Turku, Finland, Aug. 20.

Elisabeth Unseld of West Germany & **Elizabeth Jan Collins** of Australia: Received Rotary Foundation scholarships to study as graduate students for one year at UCSF beginning Sept. Unseld is studying pharmaceutical chemistry; Collins, microbiology/immunology.

APPOINTMENTS

Kathleen Brown: Director, Department of Physical Therapy/Occupational Therapy. Acting director of the department since 1984, she came to Hospitals & Clinics in 1977 as a staff therapist and became supervisor, outpatient services in 1979.

M. Hannah Hines: Director, capital campaigns, Development Office. She is responsible for the staffing of the Mothers & Children Campaign for the renovation of obstetric and pediatric facilities in the Moffitt/Long Hospitals. Hines brings to UCSF 10 years of fundraising management from USC and more recently from Sacramento public TV station KVIE. **George Kwong:** Director, major gifts program. He is responsible for soliciting gifts from friends of the campus in California and the Pacific Basin. Kwong managed similar programs at Stanford and Children's Hospital in Oakland.

Robert S. Wallerstein, professor, psychiatry: Elected president, International Psycho-Analytical Association.

Rudi Schmid, dean, School of Medicine: Named Canadian Liver Foundation Gold Medal Lecturer, Sept. 10.

Lourdes F. Olivares, associate clinical professor, medicine; director, student health service: Elected vice president, Philippine Medical Society of Northern California.

Guy M. Everett, lecturer, pharmacology: Was 1985 Visiting Professor in Neuropharmacology, University of Cagliari, Italy.

Barbara Burrall, assistant research immunologist & assistant clinical professor, immunology: Received a Physician Scientist Award from NIH.

PUBLICATIONS

Donald A. Shaskin, assistant clinical professor, psychiatry, LPPI: Co-editor, *Paul Schilder—Mind Explorer* (Human Sciences Press, NY, 1985).

Sol Silverman, Jr., professor & chair, oral medicine, School of Dentistry: Author & editor, *Oral Cancer Monograph* (American Cancer Society, NY, 1985).

Leon S. Gottlieb, consultant, occupational lung disease: Author, *Gold-Mining Surgeon* (Sunflower Univ. Press, Manhattan, Kansas, 1985). A biographical tale of Hugh Huger Toland, founder of the UCSF School of Medicine, it details his career in the early part of the 19th century.

IN MEMORIAM

Donald McKay, professor emeritus, pathology. A pioneer in the field of disseminated intravascular clotting and gynecologic & obstetric pathology, McKay was the author of the textbook *Disseminated Intravascular Coagulation: An Intermediary Mechanism of Disease,* and wrote some 250 scientific articles on these subjects. McKay received his BA in 1943 from UC-Berkeley and his MD in 1945 from UCSF. Immediately prior to returning to UCSF in 1967 as professor, pathology and chief, anatomic pathology at SFGH, he was Delafield Professor & chair of pathology at the Columbia College of Physicians and Surgeons.

Marion Nestle, associate professor, family and community medicine, and director of the John Tung/American Cancer Society Clinical Nutrition Education Center at UCSF, will be signing her new book on Tuesday, October 1, from 11:30 a.m. to 1 p.m. in the Millberry Union Bookstore.

Entitled *Nutrition in Clinical Practice* (Jones Medical Publications, Greenbrae, CA, 1985), the book is written specifically for students and practitioners in the health professions who may not have had access to formal nutrition courses. It presents information on a wide range of basic and applied topics to demonstrate the importance of nutrition in prevention and treatment of disease. The book encourages the use of nutrition knowledge and skills whenever and wherever appropriate in patient care.
